2	Ms. And we'll go on the record now, please.
3	Good morning. This is a transcribed interview of Wandrea Shaye Moss,
4	conducted by the House Select Committee to Investigate the January 6th Attack on the
5	United States Capitol, pursuant to House Resolution 503.
6	At this time, I'd like to please ask the witness to state your full name and spell
7	your last name for the record.
8	Ms. Moss. Wandrea ArShaye Moss, M-o-s-s.
9	Ms. Thank you very much.
10	And, Counsel, could you please also identify yourself for the record.
11	Ms. Williams. Brittany Williams, W-i-l-l-i-a-m-s, from Protect Democracy.
12	Ms. <u>Governski.</u> Meryl Governski with Willkie Farr & Gallagher.
13	Mr. Gottlieb. Mike Gottlieb with Willkie Farr & Gallagher.
14	Ms. Great. Thank you very much.
15	So this will be a staff-led interview today. As I described a little bit off the record
16	before we got started, members of the select committee may be joining us, and I'm
17	pleased that we have a member of our committee on right now.
18	Good morning, Mr. Schiff.
19	Mr. Schiff. Good morning.
20	Ms There we go. Apologize for speaking over you.
21	So, if our members join, they'll do so remotely. We'll be able to see them on the
22	participant screen there on the right-hand side. We'll also do our best to let you know if
23	they join us and also to let the record reflect that they've joined. And they may, of
24	course, ask questions when they do join.

Again, my name is I serve as an investigative counsel on the staff of

1	the select committee, and I'm joined here in the room today by my colleague,
2	who is a professional staff member for the committee.
3	And, before we get started today, I'd like to go over some ground rules. As I
4	described before we got started, these are the same that we cover with all of our
5	witnesses, so thanks for your patience as I walk through them.
6	So we have our official reporters here. They're transcribing the record of the
7	interview. You and your attorneys will have an opportunity to review the transcript and
8	suggest any corrections before it's finalized.
9	And, as you know, this interview today is being videotaped, and the Webex
10	portion is being recorded, but the official reporter's transcript is going to be the official
11	record of the proceeding today.
12	So some kind of best practices for these type of interviews: We'll ask that you
13	please wait until each question is finished before you begin your response, and I also will
14	try not to speak over you, to let you finish your answer before I ask the next question.
15	That is to be able to create as clean a transcript record as possible.
16	Our official reporters also cannot record nonverbal responses, such as shaking or
17	nodding your head. So we'll ask that you answer with an audible, verbal response.
18	And, although this is a transcribed interview, it's not under oath. I want to
19	remind you, as we remind all of our witnesses, that it is unlawful to deliberately provide
20	false information to Congress. Do you understand that?
21	Ms. <u>Moss.</u> Yes.
22	Ms. Thank you. So, as we go through our discussion today, it's
23	important that you understand our questions and are able to answer them to the best of
24	your ability. So, to that end, please don't hesitate to ask me to repeat myself if my
25	questions are not clear or if it would be helpful to rephrase the question.

1	And, similarly, if you don't know the answer to a question, please do say you don't
2	know it, or if you can't recall, then please say that as well.
3	We do have your attorneys here today too. So, if there's anything that I ask you
4	that you have any concerns, you can, of course, take a break to confer with them. We
5	can do that off the record here in the room or if you'd like to take some time back in the
6	holding room, to have a longer conversation, we can arrange for that too.
7	And, as we go through the process, I don't think we'll try not to keep you overly
8	long here today, but if you need a break for any other reason, to get up, walk around, or
9	take a bathroom break, then just let us know. Okay?
LO	Any questions before we get started?
l1	Ms. <u>Moss.</u> No.
12	Ms Okay.
L3	Counsel, is there anything you would like to address before we go?
L4	Mr. <u>Gottlieb.</u> Just one thing I'd like to say. This is Mike Gottlieb from Willkie
15	Farr. Ms. Moss is here appearing voluntarily today and, like Ms. Freeman yesterday, in
16	that appearance does not waive nor intend to waive any applicable privileges that may
L7	apply to aspects of her ongoing litigation.
L8	Ms Great. Thank you.
L9	Okay, great. Before we get started, Ms. Moss, I understand you have something
20	prepared that you'd like to share with us today.
21	Ms. <u>Moss.</u> Yes.
22	Ms. Okay. Please go right ahead.
23	Ms. Moss. Okay. Thank you for inviting me here today. My name is Wandrea
24	ArShaye Moss, but some people call me Shaye, and I used to be an election worker.

Almost everything else that people have heard about me is a lie, a lie that has changed

everything.

I never imagined that I would be testifying before a congressional committee because people have spread lies about me and -- my family and me.

I was born in Georgia, and I've lived there my whole life. My family has a long history of serving our community. I am the third generation in my family to sign up for public service.

When I was growing up, my mom worked for Fulton County. My grandmother retired from DeKalb County. I knew that I wanted to follow in their footsteps.

My first and only job was working for Fulton County Voter Registration and Elections. I worked there for more than 10 years. I loved my job, and I was really good at it. I even created new procedures to make our process faster and more accurate. I made sure Georgia residents were properly registered to vote.

When I was young, my grandmother made sure I knew how important it was to vote because it's an opportunity that a lot of my family before me did not have.

I wanted to make sure that everyone had that opportunity. I especially love helping older voters. Younger voters could usually figure out how to register and vote on their own, but older people sometimes needed help.

I remember even driving to a hospital once to help an elderly woman who wanted to request an absentee ballot.

Registration forms and ballots aren't just pieces of paper to me. They represent real people, voters with disabilities, single parents, college students, Active Duty military members.

I gave everyone my card so they have an actual person that they can contact instead of the office. I wanted them to know I valued their vote just as much as they did.

1	My mom taught me that you do things the right way, not the easy way. And my	
2	job wasn't easy. It's work that required patience. It required commitment too:	
3	checking, double checking, focusing on the details, and on a tight deadline.	
4	I was used to quietly doing my job, even if that meant waking up way too early,	
5	coming home late. I missed so many of my son's activities because I had to work.	
6	Whenever I missed something, I knew how lucky I was that my grandmother could fill in	
7	for me. I wanted to show my son that hard work would pay off.	
8	Ever since December 2020, my family has been under attack for doing my job.	
9	My mom too. We all have. See, my mother Ruby signed up to work with me in 2020	
10	as a temporary election worker.	
11	In the 2 weeks before the election, we worked from 7 a.m. to 7 p.m., 7 days a	
12	week. During election week, we worked even longer shifts. After the election, we	
13	were so proud of a job well done, and my mom was proud of me.	
14	But, in early December, former President Trump, Rudy Giuliani, and their allies	
15	start spreading terrible lies about my mother and me. They said we snuck ballots into	
16	the State Farm Arena in a suitcase.	
17	That's not true.	
18	They said we lied about a water main break to kick observers out.	
19	That's not true.	
20	They said we counted ballots multiple times to try to steal an election.	
21	That's not true.	
22	And they said we passed around a flash drive to try to hack a machine.	
23	That's not true.	
24	The thing they got so excited about, that my mom passed to me, was a ginger	
25	mint, her favorite candy.	

1	None of the lies are true.	They don't even make sense.

Why do I say it doesn't make sense? You can't just walk a suitcase full of fake ballots into a counting facility in Fulton County. We have a system in place to make sure every vote counts.

Information on the envelope has to match the information from the real voters. Information from the precincts has to match the total votes counted. You can't just invent large numbers of votes or voters, especially in the system with hand recounts, cameras everywhere, campaign officials, State election officials monitoring your every move.

We knew we were watched. We expected it. We welcome it. For the same reasons, you can't just count ballots multiple times. The discrepancy will show up in the ultimate count.

And, as for the water leak, it was a real thing that happened with dozens of witnesses. But you can't say to people, like, you can't say much to people that think up is down. Right? I helped count ballots in 2016 when President Trump won and 2018 when Stacey Abrams lost.

I was proud of our work in those elections. It didn't matter to me who won or lost because I'm not a political person. The job was never about politics to me. It's about counting every vote.

But none of that mattered. Former President Trump, Rudy Giuliani, and their allies just didn't like the outcome of the election. So they attacked us simply because we were doing our job.

As a result, I've been threatened and harassed. One stranger told me I was lucky it's 2020 and not 1920. Another one told me that I should hang alongside my mom for committing treason.

1	My son received some of those threats a child he heard horrible things about	
2	his mom just because I did my job.	
3	People showed up at my grandmother's home trying to bust the door down and	
4	conduct a citizen's arrest of my mom and me. The threats followed me to work.	
5	People would email the general email address for our office, so everyone could see the	
6	threats and hateful messages directed to me.	
7	These were people who didn't even know us. They didn't care about our	
8	dedication. They just refused to accept the outcome of the election.	
9	I have to live with this every single day. Before 2020, I was never scared of	
10	people knowing my name, but after, I stopped giving out my business cards to voters.	
11	Now I worry when I'm in the grocery store. I worry when I go shopping with my	
12	mom and she calls my name out across the aisle. I worry when I pick up the phone and	
13	a voice I don't recognize says my name.	
14	I feel responsible for what happened to my family, like, somehow it's all my fault	
15	because I chose to work as an election worker. I wanted to help, but I never imagined it	
16	would cause so much hurt.	
17	Like, can you imagine what it's like to feel responsible for your grandmother, your	
18	mother, your teenage son being threatened and lied about over and over again, to be	
19	singled out as a criminal, to be accused of treason in the only country you've ever called	
20	home?	
21	I didn't realize how much I loved my job until it was taken away from me by a few	
22	people who decided that their lie is more important than my life.	
23	But I'm here, I'm here today for more than myself and my family. I'm here to	
24	speak for the election workers out there who were, are, or will be threatened and	

attacked for just doing their jobs.

1	I'm here today because I want the truth to be heard. Nobody should have to go
2	through what I've been through, especially not our election workers who do the heavy
3	lifting our democracy depends on.
4	They don't receive the recognition or respect for the service that they provide this
5	country. Yet they showed up, I showed up, every single day, every single election. I've
6	never missed one election in 10 years.
7	I'm here because this has to stop. The people responsible for the lies need to be
8	held accountable. Congress needs to take action. Congress needs to protect our
9	election workers and protect the victims of disinformation, like my family and me. If it
LO	doesn't, I know there will be many more just like me.
l1	Because of the lies, my son has to grow up way too quickly. Because of the lies,
L2	there are some days I don't want to get out of bed. There are some days I want to curl
L3	up under the covers and disappear. Because of the lies, I've lost who I was, and I'll never
L4	be again able to do the work that I felt called to do. My life will never be the same.
15	I had to just come to terms with the fact that there will always be people who
16	believe these lies about me. Always. There will always be someone that believes I
L7	should be in prison or that I should be dead. There's no way to fix what happened to
18	me, and I'm here to tell my truth and to help make sure this never happens to anyone
L9	else.
20	My loss has got to be for something. Thank you.
21	Ms Thank you very much, Ms. Moss.
22	Ms. <u>Moss.</u> Thank you.
23	Ms Take all the time you need. If you want to take a break before we
24	continue on, that's perfectly fine too.

Ms. Moss. I can do it.

1	Ms Okay. Well, first, I just want to thank you for your service as an
2	election worker throughout the 10 years that you just described to us, and I hope we'll
3	have an opportunity to learn a little bit more about your work with Fulton County and
4	your background. So thank you for that.
5	But thank you very much for the courage that you have shown since then and the
6	courage that I know it takes to come here and speak with us. That was very moving.
7	I regret that I will ask you a bunch of questions following up on it because I'm not
8	sure I can improve much upon that. So thank you very much and thanks for being here.
9	I also just want to note before we get started that, you know, we're going to go
10	over I'd like to go back over some of the facts and get a little bit more of a sense of
11	what it was like for to you have gone through this. I know those might be difficult things
12	to think about and talk about. We appreciate you doing so here today.
13	But I also don't want you to have to talk about anything in this context that might
14	make the trauma that you've gone through any worse. So, if any of my questions do go
15	over a line that you're not comfortable talking about, I hope that you'll let me know and
16	let your lawyers know. We can talk through it. Does that make sense?
17	Ms. <u>Moss.</u> Yeah.
18	Ms. Okay, great.
19	Mr. Schiff, I see your camera's off is there anything you would like to say before
20	we get started?
21	Mr. Schiff. I just wanted to take this opportunity to thank you for your incredible
22	service to the people of Fulton County, the people of Georgia, and around the country.
23	Thank you for the courage you've demonstrated. Thank you for speaking out on behalf
24	of election workers around the country, all too many others of whom are facing threats as
25	well.

As I mentione	ed to your mom, I'm very, very alarmed at what you and your family
have gone through.	No one should have to go through that and endure what you have.

I can relate to part of what you've experienced, the threats that I and my family have received also. So your words really resonate with me.

But I want to thank you for coming in today to talk about these events. As hard as they may be to talk about, it's important that we really bring to the attention of the American people what's happened in this country and the danger to our democracy.

We need people like yourself who just count the ballots, do what they're supposed to do, and there's a real danger to that process with what happened to you and your family.

So thank you again for coming in today. Thank you for your service over the years, and I'm sorry for what you and your family have had to go through as a result.

Ms. Moss. Thank you, sir.

14 EXAMINATION

15 BY MS. :

Q Okay. So, Ms. Moss, I'd like to start at the beginning a little bit, and my questions today I think will be organized. I want to give you a little bit of an overview. I would love to just talk little bit about your work for Fulton County, how you became involved, and what your work entailed on previous elections, and then talk a little bit about the 2020 election, and then how you learned of the lies that were being told about you and sort of the, you know, factual -- the facts about what happened in December, in particular, 2020, leading up to January 6th.

And then, at the end, I would plan to talk with you a little bit more about the impact on your family, the types of threats that you've received, which I know you've described to us getting started here, but maybe if we can get a little bit more detail about

1 that at the end, if you're comfortable. That would be helpful. 2 Α Okay. Does that make sense? 3 Q Α Yes. 4 5 Q So I know you've told us that you worked for the Fulton County 6 Registration and Elections Department, I think you said, for 10 years. Is that right? Α 7 Over 10 years, yes. Q Over 10 years. Okay. So tell me, how did you first become employed by 8 9 the Fulton County Registration and Elections Department? 10 Α Well, I first became employed, well, because my mom was working Fulton 11 County, and she informed me that they were hiring for temps and said: If you do good, 12 they might hire you permanently. 13 And I just always kept that in mind, and, like I said, my grandmother worked for the county. So I did it; I applied, received an interview, and was hired as a temporary 14 elections worker. 15 And, when you were first hired, did you work just around election day, or 16 were you there for the entirety of the year? 17 Α Well, when I was first hired, like, September 25th, 2011, and it was for the 18 19 November election that was coming up in 2011. And so we were -- most of the temps 20 were released in December, and I was called back in February. And, in 2012, we had a 21 few elections, and they just let me stay on for the whole year basically. 22 And, by then, I got to know people, learned, like, different people jobs, what they 23 do, you know, tried to help them with the work so I could learn. And, after that, I was 24 one of the main temps that they're going to call back every year.

That's great. What type of jobs did you do, either around election day itself

25

or leading up to it?

2 Α Well, leading up to elections, we're always processing voter registration applications, whether they are by mail, through the Department of Driver Services, through OLVR, online voter registration. So we're just trying to process, because it's a

registration deadline before the election. 5

> So, once the deadline comes, now we're processing absentee applications. And we all have to go to poll worker training.

And then I was a part of the mail room crew, basically stuffing, and, you know, we have the machines to stuff the ballots and mail them off. And that's what I would do, and receive them back and give, you know, give the voters credit for voting. And so that was the main job that I was doing.

And then that's the same, like, crew, so to speak, basement crew, that will take the ballots to whichever location, you know, they want us to take them to and start to tabulate. So it's literally been all I've done the entire time. That's what I was -- enjoyed the most.

That's what I was going to ask you. So what was it about your job, I know you said in your remarks at the beginning here that you loved the job. Tell us a little bit more about that. What did you love about it?

Α Well, I loved that -- you know, it was my first job, and I love that they thought I was valuable. So I'm an only child. I think it's this only child thing, that we don't want to work the hardest way. I'd rather work on finding a way to make this easier. So I was that person for them.

I would, you know, do Excel files and different things to help whatever task we were doing to make it easier and, you know, become the best at it.

And I just found the love for the ballots. I like working with the machines.

1	That's something that you don't do on a normal job. And that's what rinke, getting		
2	trained to work on all the machines.		
3	I didn't I'm not a sit-at-a-desk-type of girl. You know, I could do it, but, yeah.		
4	Q That's great. And I think you said earlier that you had interaction directly		
5	with voters helping them to complete their either registration or the absentee ballot		
6	applications. Is that right?		
7	A Yes.		
8	Q So tell me about those interactions. What did you enjoy about interacting		
9	with voters in Fulton County?		
10	A Well, everyone has a desk and you have your own direct number. So you		
11	always have to have your phone on ready. So, when the calls come in to the office, you		
12	know, you pick up the calls.		
13	And that's where you help the voters, mainly older people are the ones who are		
14	going to call and get help because now you can do everything on the computer, on your		
15	phone, and, I mean, or cell phone. They don't like that.		
16	They want you to mail them their precinct card: I want you to put an application		
17	in the mail for me.		
18	And I know what it's like trying to get through to companies and automated		
19	systems. So I wanted them to I wanted to first help them over the phone and then		
20	give them my card so, if they have any questions, they can reach me directly.		
21	And, after doing that for a few years, you have a lot of people that are just, like,		
22	calling you: It's that time again, Ms. Moss. Can you send me some? And I need one		
23	for my son too, he's in college now.		
24	You know, that just became what I do.		
25	And people come to the front desk as well, and, you know, I would treat them the		

- same way so they would come to the front, say: Is Ms. Moss here?
- 2 And that's what I love, being the one that could make everything okay for them.
- They come in upset, and they leave, like, so happy. That's what I love.
- 4 Q That's great. And the goal, I think you said this earlier, the goal is helping
- 5 them to be able to have their voice, I think you said.
- 6 A Right.
- 7 Q So tell me more about your comments at the beginning, about how those
- 8 pieces of paper, what they resembled as far as the voters, the individual voters?
- 9 A It resembles a lot. It's them. It's the person. So it's a whole lifeline to
- me. Like, they will call, say an elderly woman will call and say: I am no longer able to
- go vote. I'm immobile. Can I vote from home?
- Yes, ma'am. I will send you an application, and you fill it out, and you mail it
- back to me. And I'm going to give you a postage -- you know, the postage is paid and
- everything. I'm putting everything in the envelope along with my card. If you need
- 15 help filling it out, let me know.
- So, in the mail room, we're getting everything that comes that day. Say, if we
- get a hundred applications that day, we have to have it on the dashboard for the
- secretary of state to see, on this date, we have a hundred applications.
- Those applications will get that date put on them, and then, when I put it in the
- system to give them a ballot, they keep their date. When I mail them their ballot, it has
- their date. When it comes back, I have their new date. And, if they go to their record
- on My Voter Page, that's how you're able to see your election, the day it was issued, the
- day it was received, and then the day you got credit. So that -- that was our process.
- 24 That's what I love.
- Q Well, I could tell that you -- I think you described working your way up and

1	clearly had a very good handle on all of the rules and regulations and it seems took the
2	administration of the process very seriously. Is that fair?
3	A Yes.
4	Q And tell me I mean, to state the obvious, you're helping everyone who
5	calls in seeking to register for vote, regardless of whether they're Democrat or
6	Republican. Is that right?
7	A Yes. I never know. We don't identify you by party in Georgia. You're
8	just someone who wants an application to be able to vote.
9	Q Great. Thank you. So I think at the beginning you mentioned that you
10	had participated in several other kind of high-profile elections during your time with
11	Fulton County. I know you mentioned the 2016 Presidential election as well as the 2018
12	election for Governor in Georgia. Is that right?
13	A Yes.
14	Q So tell us about the process for the Presidential election in 2016, and what
15	was your role in the counting tabulation process that election day?
16	A Well, it was basically everything was the same. It all was the same. My
17	role was the same. I've always did the same thing. I you know, we first get there,
18	we train everyone on how to use the machines, and we just get to work.
19	I was just the one that's hopping around to make sure, you know, if someone had
20	questions or needed help. But, in 2016 and '18, then we were printing the ballots, and
21	that's mainly what I was doing. I was stuck at the printer all the time and then just
22	helping, you know, if someone might've needed help. I had my supervisors, and the
23	chiefs were there those years.
24	Q Okay. Thanks. And the 2018 Governor's race was quite close if I

remember correctly. Is that right?

- 1 A Yes, uh-huh.
- 2 Q And there was a recount afterwards?
- 3 A Uh-huh.
- 4 Q Were you involved in that process as well?
- 5 A Yes.

12

13

14

15

16

17

18

19

- Q So tell us a little bit about that. How did the -- I assume -- well, what's the impact that such a close race and a recount has on you all as election workers?
- A I mean, it's just part of the job. It's something that's very common when it's close and what we have to do. So basically for the election, election day, we hire a lot of temps to help out with the process.
 - But usually when they want a recount, all the temps are gone, and it's just us. So it's interesting for the recount because we're teaching our fellow permanent staff how to do this, ones that, you know, usually don't this on the regular.
 - So it's always rewarding to teach someone something new and show them another part of the process that, you know, they're involved with.
 - Q So let's talk a little bit about election day, November 3rd, 2020, this most recent Presidential election. So tell us about the election day itself. You know, I know you said that being an election worker requires a lot of early mornings and late nights especially on election day itself. So what time did you get to the State Farm Arena that day?
- 21 A 5:30 a.m.
- Q And how did the day go for you? What was the day like?
- A It was one of our typical election days. What do you want to know about the day, like, what? It was a long day.
- Q Quite typical is understandable. It was a long day; you were working hard.

- And tell me, just generally, what was your role, what part of the tabulation process were
- you responsible for that day?
- A So, by election day, I'm just overseeing everything. Everyone shouldn't
- 4 have any questions on how to use the machinery, or, you know, I'm just overseeing and
- 5 making sure everything is flowing.
- 6 I'm signing in the ballots, of course, that are coming from the government center,
- 7 telling people, you know: Lunch is here. Yes, you can take a break. Or, yes, you can
- 8 go outside, use your phone.
- 9 Just, you know, the typical things helping them, that's about it.
- 10 Q And the process that was going on at the State Farm Arena tabulation center
- was specifically counting, tabulating absentee ballots in Fulton County. Is that right?
- 12 A Correct.
- 13 Q Okay. How did the number of absentee ballots in the 2020 election
- 14 compare to previous elections?
- 15 A The 2020 election was more than I've ever seen. I thought the first Trump
- election was more than I ever seen. It was a lot of absentee, but I can't even -- it was a
- lot. And, you know, those applications first, there was just -- we had a room full, like,
- literally to the ceiling of applications, so the ballots were unbelievable. They were a lot.
- 19 Q Got it. Did Fulton County have extra staff hired for this election, for the
- 20 absentee ballots?
- 21 A Yes. The biggest staff I've had, yes.
- 22 Q That's great. So how did the rest of the day go? I know that you stayed
- there counting quite late in the evening. Did you perceive it as a normal election day
- that you were -- had been involved with before?
- 25 A Yes.

1	Q Okay. So when, after election day, did things start changing for you?		
2	When did you perceive that something these lies that you've told us about, that we		
3	know about through our investigation, when did they start? When did you start		
4	becoming aware of them?		
5	A Well, I was at work on December 4th, and the registration chief brought me		
6	into his office, and in his office was the director of registration. And they told me to sit		
7	down, turned the camera around turned their computer around, and clicked a link and		
8	played a video.		
9	It was a video of my coworkers and myself at State Farm Arena and asked me have		
10	I heard about this or seen about this, you know, have I been getting harassed or threats		
11	or and I was in shock. I didn't I was, like: No, I haven't heard about any of this.		
12	And said: You haven't been getting any threats?		
13	Said they are all over all my social media.		
14	So, you know, I really don't use anything but Instagram, and so, on Instagram, I		
15	had like hundreds and hundreds of people requesting to get into my Instagram, but at		
16	that time, the chief said they were in his Facebook.		
17	So I went to Facebook, and then I was, like: Oh, how do you see your messages		
18	on Facebook?		
19	And he said: It's a whole different app called Messenger.		
20	I'm, like: Oh, okay.		
21	So I went to Messenger, and I just saw a flood of messages.		
22	And I'm not sure if you're aware of how the messages look. It's like when you		
23	open it, you can just see the first few words of each message. And I'm scrolling down,		
24	and I can tell it's not nice, see a lot of the N word, "treason," and, you know, all of these		
25	things.		

1	So I didn't want to get into deep into it while I'm in the office with the director and		
2	the chief. So I'm, like: Oh, yes, they are all over my social media. What's going on?		
3	And, you know, they were saying: It's some lies, you know. Don't worry about		
4	it. It's nothing.		
5	And, you know, I was under the impression, like, by the end of the week, this is		
6	going to be, you know, thrown out, like, it doesn't make any sense.		
7	That is when I found out. They told me to check on my family, and unfortunately		
8	I did, and they were receiving the same things too. I went home and just was crying		
9	because then I had the chance to look at them and read them and see how much people		
10	hated me.		
11	All the sacrifices I made to make all this happen every single year, multiple times a		
12	year a lot and yeah, I was crying, called my best friend for comfort, and she's, like: Oh,		
13	you know, some people called my phone talking about you. Are you okay? Are you		
14	safe right now?		
14 15	safe right now? And then my son comes in the room, and it's like I'm just distraught at this point.		
15	And then my son comes in the room, and it's like I'm just distraught at this point.		
15 16	And then my son comes in the room, and it's like I'm just distraught at this point. He's like: What's going on, mom? Are you okay?		
15 16 17	And then my son comes in the room, and it's like I'm just distraught at this point. He's like: What's going on, mom? Are you okay? And I was showing him, you know, the things. And, at this time, he's 14, I		
15 16 17 18	And then my son comes in the room, and it's like I'm just distraught at this point. He's like: What's going on, mom? Are you okay? And I was showing him, you know, the things. And, at this time, he's 14, I want I'm always upfront with him. And he says: Oh, that's why those people have

And, at this time, he's 14, I want I'm always upfront with him. And he says: Oh, that's why those people have been calling and messaging my phone.		
15 16 17 18 19 20	And then my son comes in the room, and it's like I'm just distraught at this point. He's like: What's going on, mom? Are you okay? And I was showing him, you know, the things. And, at this time, he's 14, I want I'm always upfront with him. And he says: Oh, that's why those people have been calling and messaging my phone. My son.		
15 16 17 18 19 20 21	And then my son comes in the room, and it's like I'm just distraught at this point. He's like: What's going on, mom? Are you okay? And I was showing him, you know, the things. And, at this time, he's 14, I want I'm always upfront with him. And he says: Oh, that's why those people have been calling and messaging my phone. My son. So that's when I that's when I first found out, and, you know, I noticed well,		

We're wearing masks, and I have these long braids, and, you know, looking tired,

1	like how and that is how that's how I found out everything, and it's, like, overnight
2	literally literally everything changed.
3	Q Thank you. I'd like to ask you a couple of followup questions about that if
4	you don't mind. You mentioned that you were at work and you got pulled into a
5	meeting by the director and the chief. Who were those individuals? What were their
6	names?
7	A Ralph Jones and Richard Barron.
8	Q Okay. And what did the video that they showed you on the computer,
9	what did it look like? What do you remember seeing?
10	A It looked like the video we would see every time we entered or exit the
11	building. We knew we were being recorded. It looked like someone took part of the
12	recording.
13	Q So it was, like, a surveillance video. Did it have the four different views
14	showed on the same screen?
15	A Uh-huh.
16	Q Okay. And so tell me a little bit about that. You said that you knew that
17	the process was being recorded, the tabulation process. In your experience as an
18	election worker, what are the how did you know that you were being recorded, and
19	what were the levels of security and supervision of the process?
20	A Well, we are always recorded. Usually it's, like, these guys that set up this
21	recording, looks like a recording TV little studio. And we just work around them.
22	But, since we were in the nice arena where the Hawks play, they had built-in
23	cameras, you know, in the ceiling. So it's always, like, we're always recorded, and

Q And, during the tabulation process, is it correct that there are members of

there's always a recorder there from start to finish, every single day.

24

- the media there and also observers from the political parties that watch what you're
- 2 doing. Is that right?
- A Yes. They take shifts. Yes, they're always there. I always give them our
- 4 leftover lunches and breakfast and try to, you know, keep them happy and have to stop
- 5 and explain things to them. I want to make sure everything is transparent.
- 6 But I also have a secretary of state monitor that's always with me, literally. Even
- 7 asks me, like: Where are you going?
- 8 I'm going to the rest room.
- 9 It's, like: Oh, okay.
- 10 And he writes everything down, and he's always with me.
- Q Okay. So, when you're in your supervisor's -- or the director and the chief's
- office there looking at the video, did you learn where this video had come from?
- 13 A Uh-huh.
- 14 Q What did they tell you?
- 15 A They told me that it's circulating around on the internet and everywhere,
- and people are saying that we're trying to steal an election.
- 17 Q And did they give you a sense for whether they thought that that was true or
- 18 false?
- 19 A Well, we all knew it was false because that's why -- I was, like: But how and
- 20 why?
- 21 And was like: Because they can.
- 22 And, you know, said: It's nothing. Don't worry about it. It's just lies.
- But they got worse.
- 24 Q Yeah, understood. You mentioned that you learned that Rudy Giuliani, the
- 25 President's lawyer, had posted or promoted the video. How did you learn of that?

Α	They told me that.
Q	They told you. And then that Gateway Pundit had published your name.
And is that	how you think that people started to find you to reach out to you in the ways
that you de	scribed to us?
Α	Yes.
Q	Okay.
Α	Same day.
Q	Did you ever come to learn that there had been a hearing of the State senate
where this	video had been played and Mr. Giuliani, as well as other people, had made
comments about what the video showed?	
А	Yes.
Q	Do you remember what those were?
Α	Not like, I remember it wasn't nothing nice, like, we're drug dealers and
stuff like th	at.
Q	Yeah. I thought in the first time that Mayor Giuliani was at the State senate
hearing, it v	was on December 3rd, 2020, and he there was another Trump campaign
lawyer, a vo	plunteer, who had played this long video, the surveillance video.
And	Mr. Giuliani later commented about it during that hearing and said: When
you look at	what you saw in the video, which to me was a smoking gun described it as a
powerful smoking gun.	
l wo	onder what you when you learned of that, what your reaction was to it?
А	My reaction to that, it was mainly just like everything else. I was in
disbelief th	at such a, for lack of a better word, stupid lie is just circulating around and
their suppo	rters and allies are, like, running with it and believing it. I really felt like we
	And is that that you de A A Q A A Q Where this comments c

were just a scapegoat, like. It's hard to describe exactly how you -- I had so many

1 emotions, but --2 Understood. After you had that meeting with your elections chief and the Q director, did there come a time where you had a meeting with law enforcement officers 3 4 about the circumstances of this video? Α 5 Yes. 6 Q How long after that initial meeting where you learned about the video, when did the interview take place? 7 8 Like, within a week or two. Right away. 9 . Mr. Schiff, I see your video on. Is there something you would like 10 to ask? 11 Mr. Schiff. Yes, I just wanted to follow up on a couple things. The Giuliani testimony was on December 3rd. And, Ms. Moss, did you say what 12 13 day it was that you were brought in to your colleagues' office and played a video? Ms. Moss. The 4th. 14 15 Mr. Schiff. I don't recall whether you mentioned the day that that happened. Ms. Moss. Yes, sir. December 4th. 16 Mr. <u>Schiff.</u> Okay. So it was the day after Giuliani's testimony. 17 And the video that you were shown, was it -- it was footage from the surveillance 18 19 cameras. Was there any audio attached to it, or what exactly was on the video? 20 Ms. Moss. No, it didn't have any audio. It just showed us working that election 21 night, just the few of us that were left. 22 Mr. Schiff. And so, when one of your supervisor asked you, have you seen this, 23 was it just the video, or was he also referring to the social media postings about the video? 24

Right. He was asking if I seen this, like, around on social media or

Ms. Moss.

- anything. And that's when I was, like: No, I wasn't aware of that.
- 2 And that's when he said: Well, have you been getting threats or harassments.
- 3 And I said: No.
- But he showed me where to find them, and I had been getting them. But my son
- 5 was the one who received it also, his phone.
- 6 Mr. Schiff. And your supervisor showed you on your own social media where the
- 7 threats were coming in?
- 8 Ms. Moss. No. He showed me how to -- okay. So, when you go to the
- 9 Facebook app, it's just Facebook.
- 10 Mr. Schiff. Yeah.
- 11 Ms. Moss. If you want to see the messages someone sent you on Facebook, he
- showed me how to go to the other app that I didn't know about, called Messenger.
- 13 Mr. Schiff. Yeah.
- 14 Ms. Moss. Sorry, I don't use Facebook.
- 15 Mr. <u>Schiff.</u> You know, I do use Facebook, but I can't say I understand it perfectly
- 16 either. But these were comments directed to you at a public page on Facebook?
- 17 Ms. Moss. On my -- on my Facebook page.
- 18 Mr. Schiff. Okay.
- 19 Ms. Moss. Yes, I have a Facebook. I just don't use it. So it was like they knew
- 20 my name and searched my name, clicked on "send a message," and sent the message.
- 21 Mr. Schiff. And how did your supervisors know that there was this sort of
- torrent of hate on your Facebook page? Did they ever tell you how it came to their
- 23 attention?
- Ms. Moss. Well, he said -- when I told him that I wasn't aware of anything until
- 25 just now, he said they have been attacking him on Facebook, they've been attempting to

- get to his mother's house, and -- this was Mr. Jones.
- 2 And then Mr. Barron said: Yes, they -- they're sending me harassments and
- 3 threats.
- 4 And I was just, like: What? People can do that?
- 5 And I guess this has happened to them before. So he told me, you know, where
- to look, and then that prompted me to just look at my Instagram and then looked at
- 7 Twitter and then just start searching online and reading comments, which I shouldn't
- 8 have done, but, yes.
- 9 Mr. Schiff. Yeah. I know that feeling. I had a son around the same age -- I
- have a son around the same age who went through what we went through around the
- same time. How is your son doing now?
- Ms. Moss. He's getting much better. Like I said, he's had to really grow up
- really fast. So he's 15 now, but he feels like he has to protect me in every aspect. He's
- became, like, much more aware, not like a kid, you know, that just doesn't care. Like, he
- wants to know what's that in the mailbox, and he's just, sad to say, it's like he turned
- from 14 to 21 overnight, like mentally.
- But they were in school -- they were virtual then when that happened. So I felt
- like he had more time, you know. It was -- it was really bad.
- 19 Mr. Schiff. And so there was all this social media hate against your two
- supervisors, against you, against your mom. It showed up on your son's social media as
- 21 well?
- Ms. Moss. So, at 14, he cannot have social media. No, huh-uh.
- 23 Mr. Schiff. That's a safe choice.
- 24 Ms. Moss. He had just -- he just received a phone. I finally let him have a
- 25 phone, because boys can be boys. And, you know, because I was -- it was, like, four

- elections that year. I was always at work, and when it's election, it's overtime.
- So I wanted, you know, to be able to contact him. And school was virtual. It was COVID. He was at home. So I let him have a phone, but I gave him my old phone,
- 4 and then I just got a new phone.

- So they found my social media, but my address is why they ended up at my grandmother's house. And my phone number is why they were all on my son's phone and knocking him out of class all day because he was virtual. And I'm sorry; election workers don't get paid that much. I cannot afford WiFi. So he uses the hotspot on the cell phone to be on the Chromebook to go to school. And, yeah, he failed every class that year. First time ever.
- 11 Mr. <u>Schiff.</u> So sorry to hear it. Thank you.
- 12 I yield back to you.
- 13 Ms. Thank you, Mr. Schiff.
- 14 BY MS. ::
 - Q So, Ms. Moss, just to make sure I understood the last point that you shared with us. So you had given your son a phone that you used to be associated with you and your phone number. So, when this hate started being directed at you, some of it actually was initially received by your son on the phone that he was using for school at that time. Is that right?
- A Right.
 - Q Okay. And I wanted to just go back to that initial meeting that you were just discussing with Mr. Schiff, with your supervisors. And I wondered when you first spoke with your mom, Ms. Freeman, about this.
- A I spoke with her, it was around that same -- that same time when she, you know, told me that she's receiving the same -- the same thing, and they're coming to her

- 1 house. And, you know, my grandmother was calling me. It was all around the
- 2 same -- the same time.
- 3 Q So your mom was working at State Farm Arena with you that evening, and
- 4 she was also shown on the video that you learned that Mayor Giuliani had played in the
- 5 hearing. Is that right?
- 6 A Yes.
- 7 Q Okay. And so she immediately started receiving threats as well?
- 8 A Yes.
- 9 Q Okay. So, going back to that early December time period, so I think
- December 3rd, as Mr. Schiff just said, was this date where Mr. Giuliani was involved in
- this video for the first time. And then, December 4th, the next day, you had a meeting
- with your supervisors.
- Did you then, after that, meet with law enforcement officers, agents from local
- law enforcement, or the secretary of state's office?
- 15 A Yes.
- 16 Q And when was that, if you remember?
- 17 A Within that week or two.
- 18 Q Okay. And tell me, how did that meeting come about?
- 19 A Well, my -- Mr. -- my director informed us that we would have to meet with
- them, and then, when that day came, we went to a room sort of like this. So everyone
- 21 that was working with me that was in the video came, and we met with the county
- attorney, the secretary of state monitor -- investigator -- I'm sorry -- the investigator was
- there, the FBI, the GBI.
- They met with us, just gave us a briefing first, telling us what to experience, and
- 25 then they separated us in different offices, like not even on the same floor. And they

1	would the	ey went and questioned each of us.
2	Q	All right. So tell me about that process. What were the types of things
3	that they w	ere asking you about?
4	А	Well, they basically had pictures of the video that Rudy Giuliani put out and
5	just basic q	uestions, asking me: Who are these people? What are they doing right
6	now? Wh	at are we doing in these pictures?
7	And	that's it.
8	Q	About how long did they speak with you that day?
9	А	I would say probably about an hour, and that was, like, with the briefing and
10	the waiting for them to come, everything total, probably about an hour.	
11	Q	And how did it feel? What was your experience like to have to talk with
12	them about these events?	
13	А	It felt great. It felt like we're taking a step into, like, getting rid of all of
14	these lies.	Finally someone that has some type of authority is now handling this and can
15	speak on o	ur behalf and help us out with the truth.
16	Q	And what happened after your interview? Did you have any further
17	interaction	with those law enforcement agencies?
18	А	No. They just gathered that everything that they were told was a lie.
19	Q	And did you learn about the conclusions of their investigation?
20	А	Well, I learned when the secretary of state, and, you know, they just
21	debunked e	everything, said that it was just all a lie; we did nothing wrong.
22	Q	Did you see any change in the amount of the threats or the hate that was
23	directed at	you after it became those officials, you know, made public statements that
24	it was a lie?	
25	А	No.

1	Q	Did the did the did you see other instances of people promoting the lie
2	after that p	oint?
3	А	Yes. It spread. Yes. Every everyone that was messaging and
4	sent like,	none of it really stopped. They still felt the same way. After he said that
5	we did noth	ning wrong, it did not stop them for from, you know, believing all those lies.
6	Q	Okay. I wanted to ask you a couple of questions about other instances
7	where Presi	ident Trump and his associates, his allies, again, promoted or restated these
8	lies about you.	
9	One	, in particular, jumps out at me. President Trump appeared in Georgia at a
10	campaign ra	ally in the first week of December, on December 6th, 2020. Were you aware
11	of him coming to campaign for the Senate runoffs?	
12	Α	Yes.
13	Q	Did you come to learn about any role that these lies played in his speech that
14	evening?	
15	Α	Yes. He talked about it.
16	Q	Yeah, I think this is the case actually where he stopped his speech in the
17	middle of it	to play a news clip?
18	Α	He played it on a big screen and uh-huh.
19	Q	Did you watch the speech either live or later?
20	Α	No, I did not, but I received, like, messages and stuff and screenshots. And,
21	you know, p	people at work felt like they needed to tell me: He's talking about you again.
22	Yeah.	
23	Q	What was your reaction when you learned that the President had mentioned
24	these event	s and shown that video during his speech?

I mean, I became concerned, you know, for my mom and my grandmother

- and my son. I didn't want him to keep saying the lies to make the people, you know,
- 2 angry and come after us. And so I was upset. I was afraid. I was hurt. I was in
- disbelief. You know, I just mainly was, like, in disbelief, like, what?

1			
2	[12:00 p.m.]		
3	BY MS.		
4	Q Did you did you see did the threats and the hate that was being directed		
5	at you did it continue after that point?		
6	A Yes. It's it's not went away to this day.		
7	Q Could you tell any any impact that after were there any changes of		
8	increased, you know, threats, or anything after those very public statements by the		
9	President?		
10	A Not not an increase. It just seems just to always be there. It's like it's		
11	always someone who's, you know, saying those things. It wasn't really a an increase		
12	or you know, I didn't notice anything like that. I just knew he's still out here saying		
13	these lies, and he's public and bold about it, and his allies and supporters are just as		
14	public and bold about a lie. Yeah.		
15	Q So I wanted to ask you about another instance where that was pretty		
16	widely publicized at the time where these lies came up again and were promoted by the		
17	President himself. That was on a phone call with Secretary of State Brad Raffensperger.		
18	Do you remember that?		
19	A Yes.		
20	Q So I think the call took place on January 2, 2021, and it became public shortly		
21	thereafter. So I wonder if you remember if you remember where you were and how		
22	you learned about this the phone call?		
23	A No, I don't remember where I was or really how I learned of the call. I		
24	mean, I knew about it. I you know, I still was working with elections. We were		
25	preparing for a new election that I yeah, I was aware. People talk and tell you, you		

1 know? But, no, I don't remember exactly where I was or, you know, anything like that. 2 So there was a runoff in Georgia just a few -- planned for a few days after. I Q think it was January 5th. Is that right? 3 Yes. 4 So this must have been a very -- a sort of crunch time for you as an election 5 Q worker. You were still working and preparing for that runoff race. Is that right? 6 Α Yes. 7 Q All right. So tell me, when you did learn about this call from -- between the 8 9 President and Secretary Raffensperger, what did you learn about it? 10 Α I learned that he said my mom's name, like, almost 20 times. I learned that 11 he had no idea about the voting process, and he just wanted to win. And he was really trying to convince the secretary of state to help him do so. 12 13 You mentioned that you learned that he mentioned your mom's name. I think he -- I think I recently counted. He said it -- 18 times, he said her name on the call. 14 Α Uh-huh. 15 What was your reaction? How did that make you feel, especially in light of 16 all that you had already gone through? 17 Α I felt horrible. I felt like the worst daughter ever, you know? I felt like, if I 18 wouldn't have ever decided to work for elections, my mom, my grandmother, my son, 19 20 myself, we would not be in danger and spread lies about us all over social media and the 21 world, like -- I felt -- I felt horrible. 22 Q So we had the opportunity to speak with your mom a little bit yesterday, and 23 she -- she told us that she at some point around this time needed to leave her home for

her own safety.

Is that right? Do you remember that?

24

Uh-huh. 1 Α 2 So tell me what you know about that. How did -- how did your mom come Q to the place where she couldn't stay in her own home because of safety concerns? 3 4 Well, people kept coming to her house, and, you know, she told me -- the FBI told her that it just isn't safe anymore, and it would be a wise decision if you left. 5 And how long was she -- did she need to stay away from her house? 6 Q 7 Α I'm not sure. I'm not sure how long, because it seemed like forever. I'm really not sure. 8 9 Q Uh-huh. Leading up -- after the call with Secretary Raffensperger, there 10 was -- on the -- leading up to the January 6th, did you perceive -- did the threats that were being directed to you continue during that time period? 11 Α 12 Yes. 13 Q Any change or increase in the amount of them or the level of attention on these issues after that phone call with Secretary Raffensperger? 14 15 Α I don't -- I don't -- I don't believe it was -- I wasn't measuring, like, increase or decrease. 16 Q Yeah. 17 Α It was just like: Wow, somebody's at my grandmother's house? Like, 18 19 what -- what do I do? You know, call the police, grandmother. 20 And, you know, she would call me and was like: Shaye, are you being funny? 21 Why would you send me a thousand pizzas? And I'm like: What? 22 23 And, you know, so I wasn't measuring or, like -- was just like: Wow, something

else horrible is happening because of this lie.

And it's like: Wow.

24

1	Like	that's what I was thinking.	
2	Q	So, stepping back from that time period leading up to January 6th but just	
3	throughout	this time, I do want to get a little bit more information from you about the	
4	types of the	threats and the impact on in you and your family.	
5	А	Uh-huh.	
6	Q	So I know you told us that initially you learned of this and you started	
7	receiving threatening messages through social media. Is that right?		
8	А	Uh-huh.	
9	Q	And tell us about the other ways that people were strangers, I assume,	
LO	were contac	cting you and sending threatening messages?	
l1	А	Well, they would call my son's phone, like I stated, which knocking him out	
12	of his class.	They would send voicemails, just breathing on the phone really hard, like	
L3	trying to int	imidate us. A lot of text messages on his phone. Like I said, going to my	
L4	grandmothe	er's house and saying they're looking for me: I know that B is in there.	
L5	Like	I she's on the phone with me and screaming to the top of her lungs, and I	
16	can hear th	em, like, banging on her the old creek of the screen door. Yeah, my on	
L7	my social media, yep.		
L8	Q	And I think you said earlier that that they went to your grandmother's	
L9	house. Di	d they think that you lived there?	
20	А	Correct.	
21	Q	And tell us a little bit more about your grandmother and just about who she	
22	is and what	impact this had on her for people to show up like that.	
23	Α	Well, my grandmother's a very strong woman. She's like 76 years old, and	

she has to get her 10,000 steps in a day. So she's not the type to let things stop her

24

25

from doing what she wants to do.

1	You know, I was telling her: You can't go walking around the neighborhood				
2	anymore. You need to be careful.				
3	And she didn't care about any of that. She's going to do, you know, the things				
4	she want to do.				
5	But she often would call me concerned about me, and that that's what, you				
6	know, got to me. She was concerned about me and my son's well-being more than				
7	herself. She, you know she's a widow. She's retired, DeKalb County and Sears, and				
8	she's a very strong woman, and she's like my backbone.				
9	She's the one that was able to help me with my son so I can be good at my career.				
LO	Like, she joined the PTA at his school, went to all his teacher conferences, and would just				
l1	leave the notes and the stuff for me to fill out. Like, everything. Pick him up from				
12	camp and summer school and, like my grandmother's my everything.				
L3	Q What were the if you remember, are there any particular things that stuck				
L4	out in your mind about what people who showed up at your grandmother's house, what				
L5	they were saying?				
16	A That they want to arrest me, and they weren't officers. I was asking: Are				
L7	they police? What do you mean, arrest?				
18	It's like: No. It's just this lady and this man, and I see another lady and man				
19	down the hill, and yep.				
20	I just remembered they felt as though it would be legal for them to push				
21	themselves through someone's home and detain a member of that residence because of				
22	something they believe that they saw online.				
23	Q Did you ever have to call the police about people who were at showing up,				

I instructed her to call the police every single time when she said they were

either in person, or people that were contacting you?

24

1	there. And I know, once, she said the police did show up, but the people, you know, had
2	went ahead and left, you know. She was loud, you know, so they could hear when
3	calling the police and telling them: I'm calling the police, and
4	O And I think you mentioned one at least one instance where nizzas arrived

- Q And I think you mentioned one -- at least one instance where pizzas arrived at your grandmother's house. Is that right?
- 6 A Right. That was like three or four times.
- 7 Q Three or four times?

- A People would just deliver a lot of pizzas with hateful things in the name and have the pizza person coming to the door asking for that hateful name and, you know, saying she has to pay for these pizzas, and she has to, you know, explain to them that she did not order these. And, as she's doing that, she's seeing the next pizza guy come up the hill.
- Q And is this something that you understood was connected to the threats that you were receiving?
- 15 A Correct.
 - Q Okay. To the extent you're comfortable, can you tell us a little bit about the types of threats that you received through -- through the phone or voicemails that were left for you? I know you just said a minute ago that sometimes it was just somebody trying to intimidate you with heavy breathing.
- A Uh-huh.
 - Q Are there any specific, you know, words or phrases that you remember people using in this context to threaten you?
 - A You should be glad it's 2020 and not 1920. You should hang with your mother for treason, and something about a firing squad for treason. And they would send like photos of things on fire, like burning flags and just -- just hateful things, you

- 1 know, saying I'm -- I would die, and it's -- something like it's legal for -- I had to ask my
- 2 lawyers that. They said it's like legal for you to be killed for treason. And just -- just a
- lot of that. Either I'm going to jail, I'm going to die, and I committed treason, or just
- 4 racist terms over -- like literally over and over and over and over.
- Did you have to change your phone number, social media accounts, or
- anything like that because of the amount of threats that you were receiving?
- 7 A Well, I changed my name on social media so that way, when they search
- 8 what it was, it would, you know, come up as nothing. And I made everything private.
- 9 I changed my hair. I used to always wear braids. Like everybody knows Shaye's
- going to wear braids all the time. Such an easy style, get up and go. But now I actually
- have to wear hair, be a girl. So I had to change that.
- 12 I started wearing my nails longer. Just changed a lot of -- a lot of things. Even
- with my son, he has long locks, and now I don't let him wear them out anymore, like how
- it was then. It's either always braided back -- yeah, just braided back. So none of us
- look the same.
- 16 Q I understand. So you've changed your whole appearance so --
- 17 A Uh-huh.
- 18 Q -- people -- is that because of people recognizing you because of what was in
- 19 the video?
- 20 A Uh-huh. Uh-huh.
- 21 Q And I remember also looking at the original Senate hearing where this video
- was played, and they refer to a woman with blond braids.
- A Uh-huh.
- 24 Q Is that you?
- 25 A That's me. That's why I don't wear them anymore.

1	Q So you're saying that you don't wear your hairstyle that way because they			
2	had identified you that way in the video?			
3	A Correct.			
4	Q Okay.			
5	A Uh-huh. And I still had to work there work at a government building with			
6	not just voter registration. It's all the government things: vital records, tags, tax records,			
7	and 911, everything. And you've been in one building for 10 years, all you have to say is			
8	the election worker with the blond braids; they know exactly who you're talking about.			
9	So it was very embarrassing, belittling.			
10	Q Understandable.			
11	So I think you've said that this harassment has continued. It's almost a year and			
12	a half later now. So tell me about that. How how are what's your experience with			
13	this now? Is it continuing to this day?			
14	A Yes. Yes. I posted a video that I thought would be a happy video of me			
15	receiving an award, and some people in my comments said: It's not great what			
16	happened to your mom and your son, but as someone who has seen proof, why aren't			
17	you in prison?			
18	And, you know, I of course, I'm going to respond, ask them, like: What?			
19	What do you mean? I did nothing wrong. What proof?			
20	And then they sent me screenshots from The Gateway Pundit. So I just deleted			
21	them, blocked her. We grew up together and went to in high school together.			
22	Q Oh, you mean this is somebody that you knew who was reaching out to you			
23	this way?			
24	A Uh-huh. In my comments. Oh, for everyone on my page, family, and			
25	everyone to see.			

1 Q So I think most of what we were talking about, threats coming in, were 2 from -- were from strangers. Α Uh-huh. 3 But did this also have -- did you experience members of your community 4 that you knew who believed this lie? 5 Α This was the first time. It just happened a few weeks ago. First time ever, 6 7 like uh-uh. 8 Q And the video that you posted, is that from -- I know you recently received 9 the Profile in Courage Award at the JFK Library? 10 Α Yes. Is that the one? Q 11 Α Uh-huh. 12 13 Q I was able to see your remarks. I know our vice chair on the committee, Ms. Cheney, also --14 Oh, yeah. 15 Α Q -- received the award and delivered remarks. 16 Α Yeah, she's so nice. 17 Q Well, I know she was. And those of us, including Mr. Schiff, who had a 18 19 chance to listen to your remarks, were very impressed by yours as well. 20 Α Thank you. 21 Q So tell me a little bit about the experience of being recognized in that 22 manner. 23 Α It was literally overwhelming. Like, I've -- I don't think I've ever experienced so much love, like, in one room. Everyone wanted to shake my hand. 24 25 They wanted to meet me.

I especially love Mr. Rusty. Like, he was my partner working around the room
and everything. I mean, I loved it. It it felt like, wow, I'm not alone, like there are
some people who have a little common sense and not just going along with the go-along,
you know? Like and, like, wow, a lot of people went through what I went through. It
was just a lot of wow moments. Like, I I felt really appreciated. So many thank-yous.
You know, it felt great to hear that.

- Q Well, I know you -- I know you mentioned in your remarks here today something that I heard you talk about in that awards ceremony, and that was how you see yourself as one of the many election workers --
- A Uh-huh.

- 11 Q -- across the country.
 - So could you talk with us a little bit about that, and what do you think that your experience means for election workers all over our country?
 - A Well, so, you know, Fulton, the county I worked for forever, is the largest county in Georgia. So I have seen, like, people that were temps with me that are now directors at, like, different counties. And they all -- if you worked in elections, you probably started as a temp, and we all know what it's like. And it could have happened to anyone. We were all doing the exact same thing with the exact same equipment with the exact same ballots.
 - So I -- you know, I want to let them know that, you know, we're no different. It could happen to anyone, and I'm here to have to go through this, you know, experience and get the truth out there so that it won't happen to you or any of your family members that want to follow in your footsteps. Like, you can do this job without being threatened and harassed and die. Like, you do your job, and you do it right. It's a great job. I loved it.

1	Ms. Mr. Schiff, I see you turned on your camera. Is there something				
2	you'd like to ask?				
3	Mr. Schiff. Yes. I just wanted to mention, Ms. Moss, that I watched the Profiles				
4	in Courage ceremony. You were wonderful, as was Mr. Bowers, Ms. Cheney, and				
5	others. And the acknowledgement of your courage was justified. It also, I think, was				
6	an important way to let other people know around the country facing similar threats and				
7	challenges that they can follow your example and be courageous. And I just wanted to				
8	mention that.				
9	I also just wanted to follow up on something you said, and that is you had a lot of				
10	strangers on social media, people who didn't know you, people who believed the lies that				
11	had been told on Gateway Pundit and by the former President, Giuliani.				
12	But you also mentioned an interaction, I think, that was someone who you did				
13	know recently who believed those lies. Did I understand you, that was the first time				
14	that that had happened, that someone you actually knew was believing that, or had that				
15	happened before?				
16	Ms. Moss. Yeah. No, sir. That was the first time that has ever happened.				
17	All of the hate and the messages and the harassments, those were from total strangers,				
18	like no one I know has even mentioned, you know, about it, because, you know, it's not				
19	something I'm going to post on my page or anything, but Jess (ph), my best friend, when I				
20	was telling that when I first found out, she said they called her saying the same type of				
21	things, but I never experienced someone that I know telling me that they believed the lies				
22	that were told about me until				
23	Mr. Schiff. And, when you first encountered them, what was that like when you				
24	had someone you knew who actually believed those lies?				
25	Ms. Moss. Well, I was actually about to get on a call a Zoom call with my				

- lawyers, and I just was, like, shaking uncontrollably. I was, like, in shock, like, we were
- 2 kids together in Spanish class in high school. Like, we've been friends on Facebook ever
- 3 since.
- I never would have -- like, it was just shocking to me. And, you know, I messaged
- 5 her. I replied to her comment. And, you know, I was like: What? I did nothing
- 6 wrong. What proof are you talking about?
- 7 And just validated everything when her proof was the Gateway Pundit.
- 8 So I got on the call right after that with my lawyers, and I tried to keep it together,
- but I had to just let it all out, let them know, and I thought I got it off my chest, what just
- 10 happened, and I was okay. And we had our meeting.
- 11 Mr. Schiff. Well, it's a good opportunity for me to thank your lawyers for
- everything you -- I -- I want to ask you -- and it may be hard to kind of quantify it, but the
- threats that you were receiving, the comments that you were receiving, how many -- you
- 14 know, how would you break it down -- if you can break it down, how many of those
- 15 [inaudible] comments were racist comments, how many were violent -- threats of
- violence, and how many were both racist and threats of violence? How would you sort
- of break it down of all that you were hearing and reading on social media or messages to
- 18 you?
- 19 Ms. Moss. It was probably about -- I would say just 40 percent racist, 40 percent
- violent, and then 20 percent of people just asking me: Hey, are you the woman that
- stole the election? Hey, are you Ruby Freeman's daughter? Is this Shaye-Shaye Moss
- 22 from State Farm. Like -- like that.
- 23 Mr. Schiff. Well, I -- your grandmother sounds like a remarkable person.
- 24 Ms. Moss. Thank you.
- 25 Mr. Schiff. Everybody should have someone like that in their lives.

1 So, through one means or another, they -- the haters found out where your 2 mother and grandmother were living. Is that right? 3 Ms. Moss. Yes. Mr. Schiff. And was it the police or FBI that told your mother that it wasn't safe, 4 she really had to move out of her own home? 5 6 Ms. Moss. The FBI. 7 Mr. Schiff. FBI. And they didn't feel they could keep her safe in her own home, that there was no recourse except to move? 8 9 Ms. Moss. I'm not sure. I never asked her that. But she did not feel safe in 10 her home. I knew that. 11 Mr. Schiff. Yeah. And your grandmother, she stayed in her home? 12 Ms. Moss. Yes. She stayed in her home, uh-huh. Mr. Schiff. You mentioned that you felt that you were a bad daughter to put 13 your family through this --14 15 Ms. Moss. Uh-huh. Mr. <u>Schiff.</u> -- put your mother through this, your grandmother through this. 16 This may be a hard question to answer, but why would you feel that way? I mean, you 17 were doing public service? None of this was your fault. Why did you feel responsibility 18 19 for that? 20 Ms. Moss. Well, I didn't feel responsible because I think it's my -- I think I did 21 anything wrong. I felt responsible because, going all the way back to the beginning, if I 22 would not have went for the Registration and Elections position, just worked at the zoo or 23 IHOP or something -- I don't know -- just anything else, this would not have happened. It -- I think that's the -- this is the only type of job that -- that that could, you know, 24

25

happen.

1 My mom worked like -- my grandmother worked for 30 years for the county, and 2 none of this has happened to her. Like, maybe I should have went to Property Tax like 3 But I went to Registration and Elections, not realizing the politics that's involved with it. I thought we were just helping people register and running the elections. I 4 5 didn't know how people could be so cruel. Mr. Schiff. Well, we're grateful that you have done the work that you've done. 6 7 How did your office treat you and what was happening to you? Ms. Moss. At what point of time? 8 9 Mr. Schiff. Well, your supervisors and others, did they provide you the support 10 you needed? 11 Ms. Moss. No. No, sir. At that time, the people -- I don't know what to call 12 them. At that time, President -- former President Trump, Rudy Giuliani, and the allies 13 and supporters, they wanted all of us to be fired. They wanted my director fired. They wanted Mr. Jones, the chief, fired. 14 15 So, yeah, they -- you know, we had meetings talking about the things that were going on. But, no, they didn't -- they didn't provide me with any -- anything. 16 Mr. <u>Schiff.</u> Were you given any security at all? 17 Ms. Moss. No. 18 19 Mr. Schiff. And did they -- have they advised you about how you could stay safe 20 or what could be done about your receiving all these threats? 21 Ms. Moss. No. Nope. Not at all. My lawyers got me security, but, no, the -- Fulton County did not do anything for me, unfortunately. And I still went to work. 22 23 Mr. Schiff. And I understand that your mother had to close down her business. 24 Is that right?

Ms. Moss. Yes. Like -- yes. She had to, yep, change everything about her

1 business, just like -- she doesn't have that business any longer, right? 2 Mr. Schiff. Okay. , I'll yield it back to you. 3 4 Ms. Thanks, Mr. Schiff. 5 Ms. Moss. Thank you. BY MS. 6 7 Q That was actually getting to the point that I wanted to speak to you last, 8 Ms. Moss. So are you still employed by the Fulton County Registration and Elections 9 Department? 10 Α No, ma'am. Okay. And when did you leave that job? 11 Q 12 Α May. May of this year? 13 Q Α Yes. This year. 14 So did you stay on and continue working through the -- through the 15 Q January 5th Senate runoff? 16 Α Uh-huh. 17 Q And after that point? 18 19 Α Uh-huh. 20 Q So what circumstances led to you no longer being employed there? 21 Α It's a lot. Should I go through all of the -- I don't know. It's --22 Q Well, let me -- let me ask you a question this way. 23 Did everything that you've told us today -- everything that you went through, did that have an impact on your ability to continue working at -- in your job? 24 25 Α Yes.

1	Q Okay. If not for this, would you have stayed in the job? I know you've				
2	told us at the beginning that you loved your work.				
3	A Right. Yes. Well, I will just say everyone is gone. Everyone is either				
4	fired or made too uncomfortable and quit, uh-huh.				
5	Q Okay.				
6	A My office was, like, under attack. Not just me. They seem to hate the				
7	entire county of, you know, Registration and Elections. Uh-huh.				
8	Q I see. And, after leaving employment by the Fulton County Registration				
9	and Elections Department, how long did it take for you to find a new job, if you've found				
10	one since then?				
11	A I haven't found one. All I know is registration and elections, and I don't				
12	think that's something I will ever be able to do.				
13	Q How does that how does that make you feel, not to be able to do that				
14	work again?				
15	A Horrible. Uh-huh. It it don't feel good. I feel lost. I feel like, what				
16	do I do now? I'm 38, but I feel like I don't want to be, like: Hello, I'm Shaye. Teach				
17	me how to do this. Like, I don't know. I don't know. Do I need to get another				
18	degree? I don't know what to do. I don't know at all. I am lost. I'm lost.				
19	Ms. Well, thank you very much, again, for going over these what I know				
20	are difficult times with us today. Thank you for being here.				
21	Are there any any aspects of this that you think that we've that we've missec				
22	today that you'd like to discuss more?				
23	Ms. Moss. No, ma'am.				
24	Ms. Okay. Anything that your lawyers would like to raise or that you				

think that we might not have addressed sufficiently?

```
1
              Mr. Gottlieb.
                             Not for me.
 2
              Ms. Okay.
              Mr. Schiff?
 3
              Mr. Schiff. Thank you. That was very heartbreaking to hear. I'm really so
 4
       sorry for what you've gone through.
 5
              I wanted to just follow up on something you said.
 6
 7
              The office that you worked in, Registration and Elections -- is that the title of the
 8
       office?
 9
              Ms. Moss. Yes, sir.
10
              Mr. Schiff.
                           It sounds like you were saying that basically everyone you worked
       with is now gone from that office. Is that right?
11
              Ms. Moss. Uh-huh. Yes.
12
13
              Mr. Gottlieb. Please say --
              Ms. Moss. Yes.
14
              Mr. Gottlieb. Thank you.
15
              Ms. Moss. Yes.
16
              Mr. Schiff. Does that include the two supervisors you mentioned that had
17
       brought you into their office to see the video for the first time?
18
19
              Ms. Moss. Oh, yes.
20
              Mr. <u>Schiff.</u> And a number of your other coworkers?
21
              Ms. Moss. The basement crew lead, yes. Every -- everyone. It came to the
22
       point where I'm the only one here from 2020. And they just made it very, very
23
       uncomfortable, so I just didn't have any choice. I couldn't stay there any longer.
```

Mr. Schiff. This is just so striking to me that the impact of these lies not just on

your lives but essentially succeeded in forcing everyone in that office out of the office

24

1 ultimately is --2 Ms. Moss. Yep. 3 Mr. Schiff. Is that right? Ms. Moss. Yes, sir. You have -- they even made a new department now called 4 5 Absentee, and that now has a deputy director who is spanking new. The supervisor is Mr. Richard Barron's old secretary. Like, it -- yeah. They're all new, and it came to a 6 7 point where everyone who has taught me everything or all my backbones in the office 8 have, you know, been pressured to quit or have just been outright fired for the smallest 9 things, and now we're in an office with all these -- everybody's new -- new, like, has never 10 done this before. 11 But they put out all these big-paying positions, so, you know, they filled it. 12 now it's Shaye's job to teach everyone else how to do what I've been doing for 10 years, 13 and I'm still getting my 34,000, and now they're in the sixties and seventies and -- yeah. It's up to Shaye. Teach me redistricting. Teach me everything. If not, you're going to 14 be fired. 15 So I just had to leave. I had to leave. 16 Mr. Schiff. And all this after an election in which you did everything you were 17 supposed to do, and the recounts verified everything that you did. 18 19 Ms. Moss. Uh-huh. Mr. <u>Schiff.</u> Nonetheless, everybody's ultimately forced out. 20 21 Ms. Moss. Yes, sir. 22 Mr. Schiff. Well, it's a terrible, terrible tragedy, and I want to thank you so much 23 for coming to testify today. I know it must be very difficult to relive these events. And 24 I'm terribly sorry that you have to relive them pretty much every day one way or another.

But we -- we're grateful for your speaking out and speaking out on behalf of a lot
